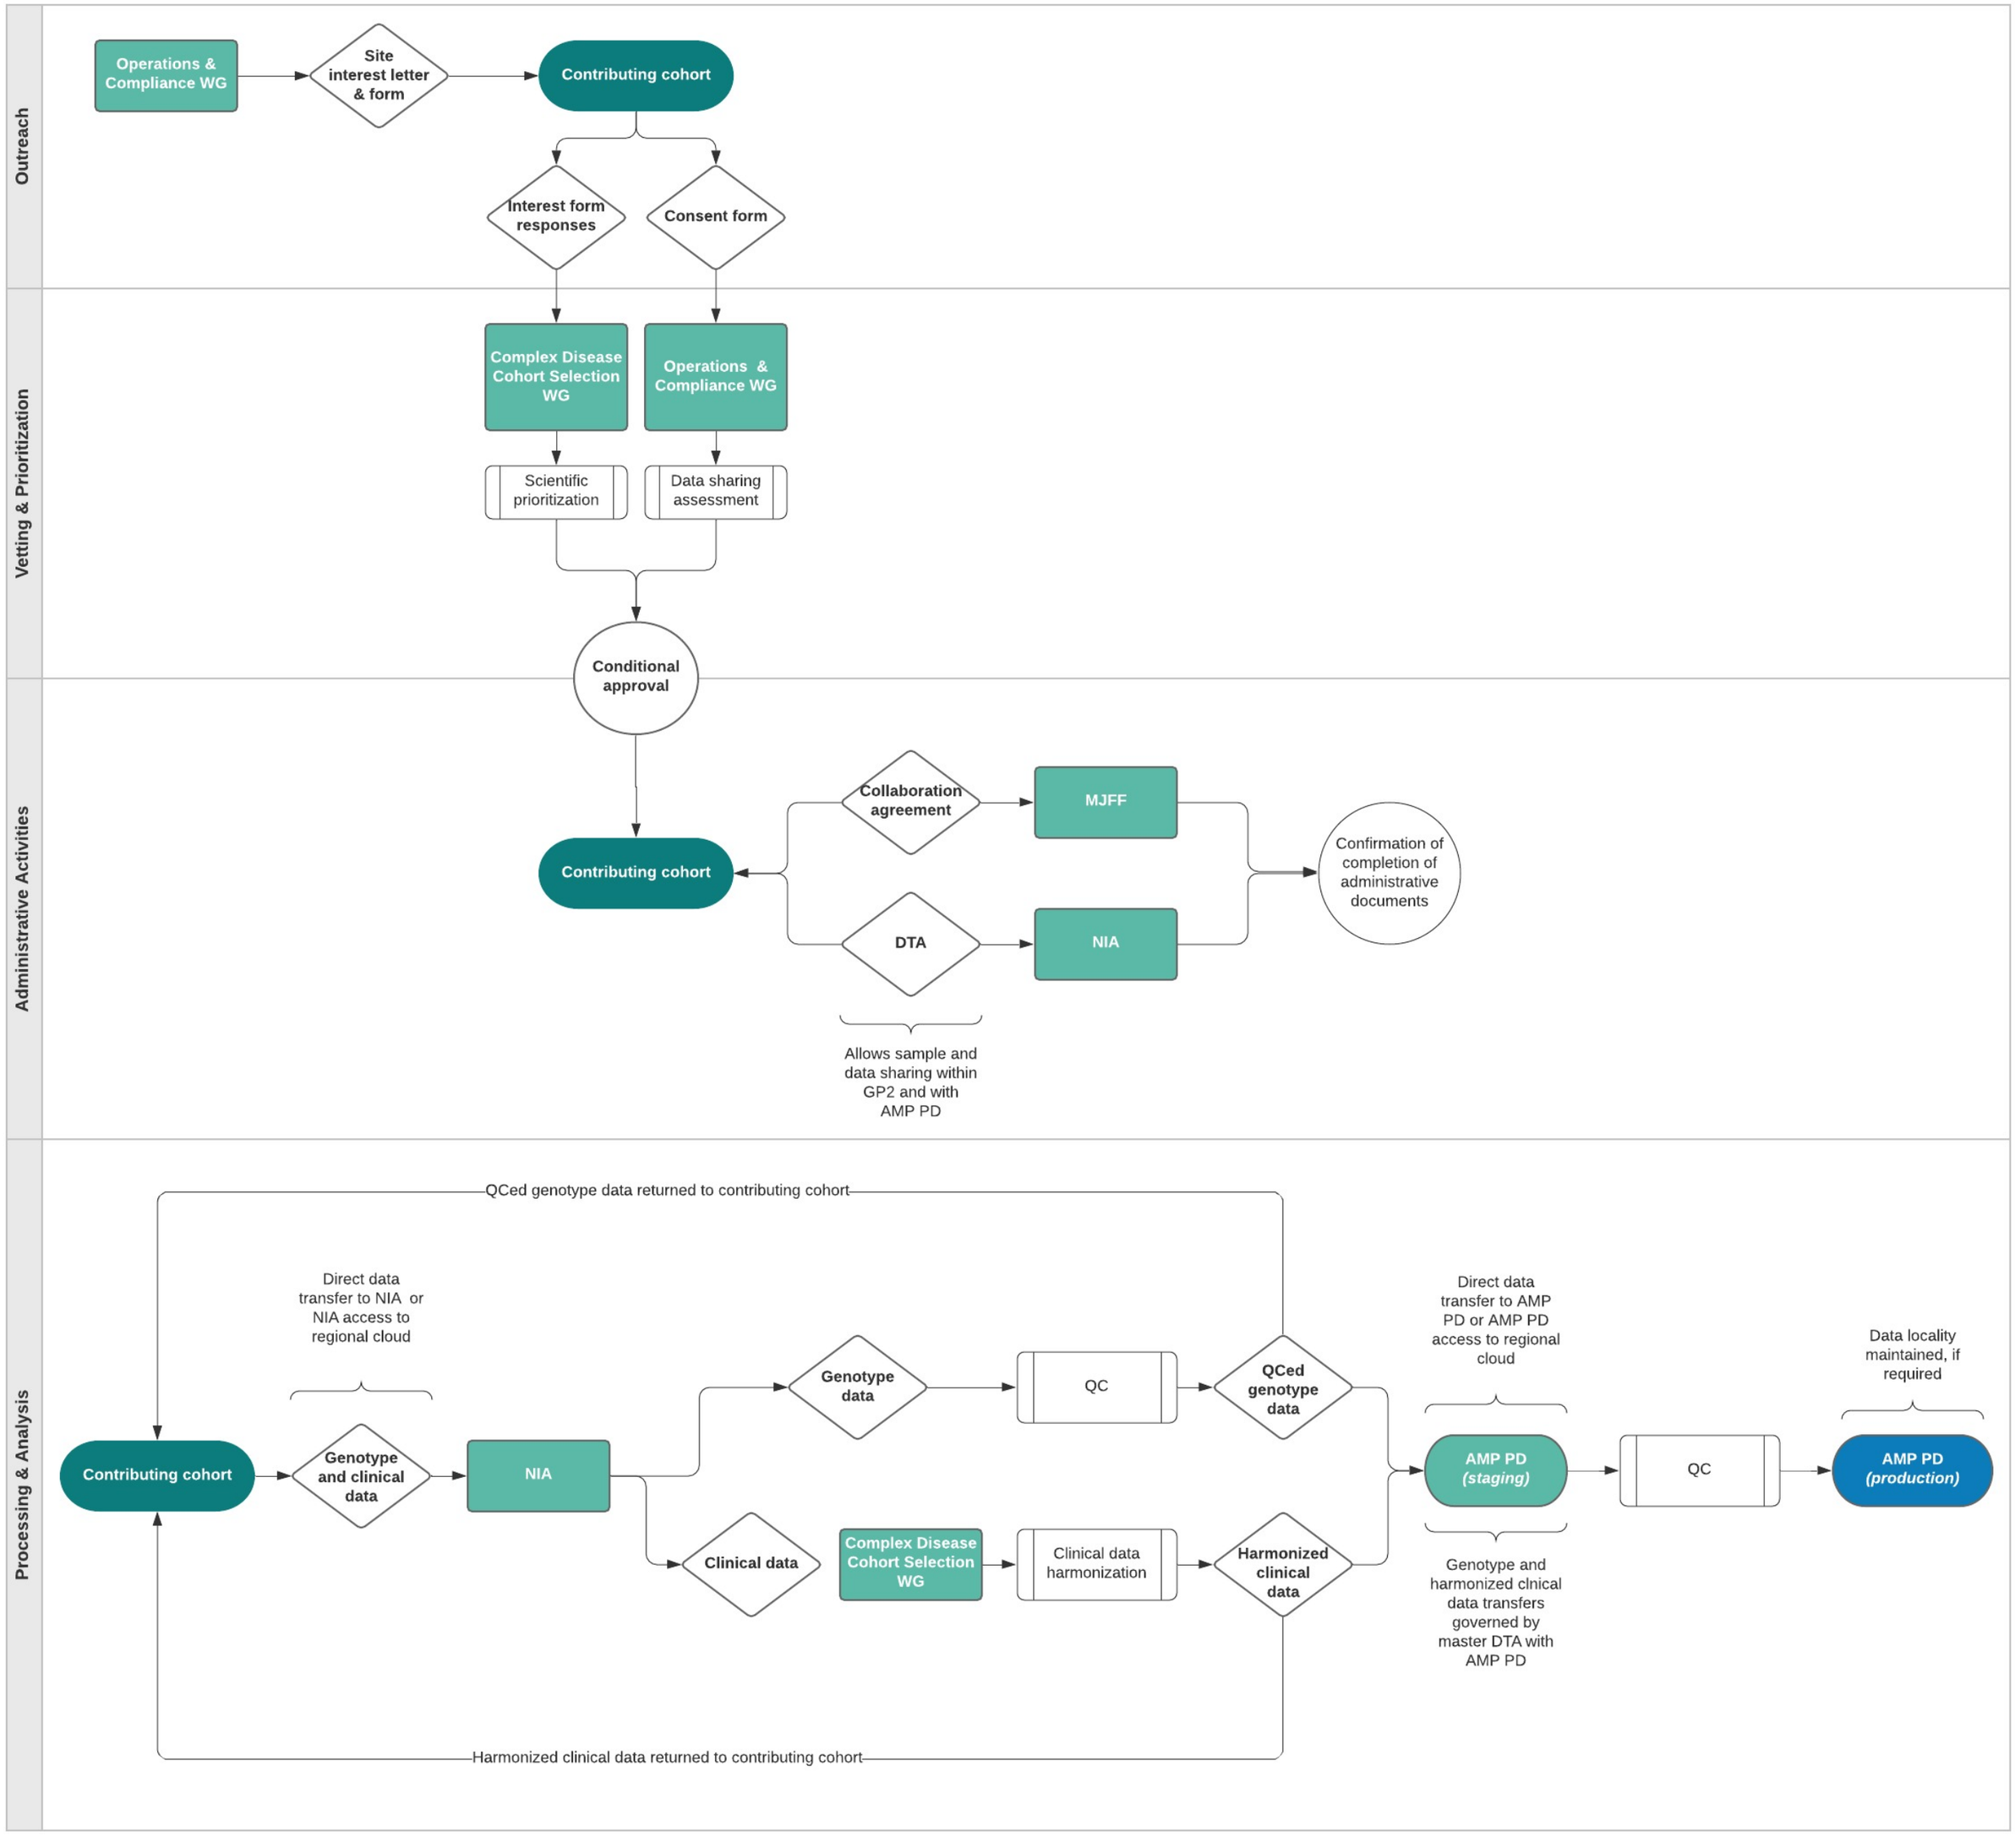
Vetting & Prioritization
Complex Disease Cohort Selection WG
Operations & Compliance WG
Scientific prioritization
Data sharing assessment
Conditional approval
Administrative Activities
Collaboration agreement
MJFF
Contributing cohort
Confirmation of completion of administrative documents
MTA/DTA
NIA or local genotyping facility
Allows sample and data sharing within GP2 and with AMP PD
Processing & Analysis
QCed genotype data returned to contributing cohort
Direct data transfer to AMP PD or AMP PD access to regional cloud
Data locality maintained, if required
Contributing cohort
Clinical data & DNA
NIA or local genotyping facility
DNA
Genotyping & QC
QCed genotype data
AMP PD (staging)
QC
AMP PD (production)
Clinical Data
Complex Disease Cohort Selection WG
Clinical data harmonization
Harmonized clinical data
Genotype and harmonized clnical data transfers governed by master DTA with AMP PD
Harmonized clnical data returned to contributing cohort


Contributing Cohorts with Existing or Externally Generated Genotype Data
